Welcome to TTGmice Planner 2018/2019

Across Asia-Pacific, the outlook for 2018 and beyond glimmers with promise, building upon the rosy results of the previous year. The region's crop of event venues, improved flight connections and capability in harnessing the latest technology has been rewarded with growth in demand from MICE markets globally, but especially from regional source markets.

Motivated by this buoyant demand, MICE venues and suppliers continue to brainstorm for fresh ideas to achieve that rare feat of both exciting and soothing jaded delegates – and have them coming back for more. Today's attendees can expect to enjoy ease of registration using a mobile phone and be kept up-to-speed through live streams, webcasting and virtual butlers 24/7; they can broaden their hearts and minds via authentic cultural experiences in the host country before, during and after events; and have the option to access healthier and more mindful F&B offerings. Not to forget optics: where good word-of-mouth used to drive business, today's MICE events must offer places and moments 'cool' enough to go viral on social media or risk being forgotten.

Where does this leave you, the MICE planner? With the upper hand, to be sure, being spoilt for choice with many exciting and unusual possibilities for your next meeting, incentive, convention or exhibition.

Use TTGmice Planner 2018/2019 as your trusty resource. It offers details on Asia-Pacific destinations and a wide range of hotels, convention centres, unique venues, PEOs/PCOs, DMCs and event support services to help you make your next event a stunning success.

What's more, you can access this information online in our freshly-revamped website, <https://planner.ttgmic.com> which also contains the latest offers from MICE suppliers.

Happy planning!

Visa Information

Citizens of most countries do not require visas for visits of up to 14 to 90 days. No visa or entry permit is required for British National (Overseas) Passport holders. For further details, check with Chinese embassies or consulates, or the Hong Kong Immigration Department's website www.immd.gov.hk/eng/services under the section 'Immigration Guidelines for Entry to Hong Kong'.

Weather

Hong Kong's subtropical climate results in four seasons. Pleasant weather in November and December make the year-end the best time to visit, but this is also the peak period for business travel. January and February are cloudy with occasional cold fronts followed by dry northerly winds. Spring starts in March and April with occasional fogs and drizzles. Air traffic and ferry services are sometimes disrupted because of reduced visibility.

Tropical cyclones (July to October), strong winter monsoon winds and thunderstorms are most frequent from April to September.

Winter, from November to April, is a good time to explore Goa's seashores and Rajasthan's cultural cities. November to February is best for heading south, where Kerala draws great interest.
